## INDEPENDENT AUDITOR'S REPORT

Honorable Chairman and Members  
Township of Parsippany-Troy Hills Fire District Number 2  
County of Morris, New Jersey

### **Report on the Financial Statements**

We have audited the accompanying basic financial statements of the governmental activities and the aggregate remaining fund information of the Township of Parsippany-Troy Hills Fire District Number 2 as of and for the year ended December 31, 2015, which collectively comprise the District's basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these basic financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of basic financial statements that are free from material misstatement, whether due to fraud or error

### **Auditor's Responsibility**

Our responsibility is to express opinions on these basic financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and in compliance with audit requirements as prescribed by the Bureau of Authority Regulation, Division of Local Government Services, Department of Community Affairs, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes performing procedures to obtain audit evidence about the amounts and disclosures in the basic financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the basic financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the basic financial statements in order to design audit procedures that are appropriate, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes assessing the accounting principles used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall basic financial statement presentation. We believe that the audit evidence obtained is sufficient to provide a reasonable basis for our opinions.

## Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Township of Parsippany-Troy Hills Fire District Number 2 as of December 31, 2015, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

## Other Matters

### Required Supplementary Information

The Management's Discussion and Analysis and budgetary comparison information on schedule C-1 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America as promulgated by the Governmental Accounting Standards Board and by the Bureau of Authority Regulation, Division of Local Government Services, Department of Community Affairs, State of New Jersey. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

### Supplementary and Other Information

Our audit was performed for the purpose of forming opinions on the financial statements of the Township of Parsippany-Troy Hills Fire District Number 2 that collectively comprise their financial statements. The accompanying supplementary information listed in the table of contents including statistical information and the letter of comments and recommendations section are presented for purposes of additional analysis, as required by the Division of Local Government Services and are not a required part of the financial statements.

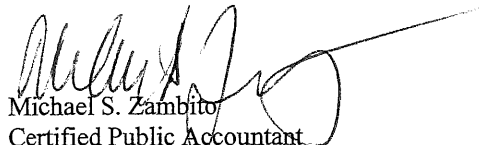

The supplemental information listed in the table of contents are the responsibility of management and were derived from the underlying accounting and other records used to prepare the financial statement. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, such information is fairly stated in all material respects in relation to the financial statements taken as a whole

### Other Reporting Required by Government Auditing Standards

In accordance with Governmental Auditing Standards, we have also issued our report dated March 4, 2016 on our consideration of the Township of Parsippany-Troy Hills Fire District Number 2's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Governmental Auditing Standards and should be read in considering the District's internal control over financial reporting and compliance.

**REQUIRED SUPPLEMENTARY INFORMATION -  
PART I**

**TOWNSHIP OF PARSIPPANY-TROY HILLS**  
**FIRE DISTRICT NUMBER 2**  
**Management's Discussion and Analysis**  
**For the Fiscal Year Ended December 31, 2015**  
**(UNAUDITED)**

Our discussion and analysis of the Township of Parsippany-Troy Hills Fire District Number 2's financial activities for the year ended December 31, 2015. Please read it in conjunction with the District's financial statements.

**FINANCIAL HIGHLIGHTS**

- The District's net position increased \$67,738.62 as a result of this year's operations or 3.88 percent.
- Total cost of all of the District's programs was \$222,128.09 in 2015 compared to \$239,864.16 in 2014.
- During the year, the District had expenses for governmental activities that were \$67,738.62 less than the \$289,866.71 generated in tax and other revenues.

**USING THIS ANNUAL REPORT**

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities provide information about the activities of the District as a whole and present a longer-term view on the District's finances. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the District's operation in more detail than the government-wide statements by providing information about the District's most financially significant funds

**Reporting the District as a Whole**

**The Statement of Net Position and the Statement of Activities**

One of the most important questions asked about the District's finances is "Is the District as a whole better off or worse off as a result of the year's activities?" The Statement of Net Position and the Statement of Activities report information about the District as a whole and about its activities in a way that helps answer this question. These statements include all assets and liabilities using the *accrual basis of accounting*, which is similar to the accounting used by most private-sector companies. Accrual of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the District's *net position* and changes in them. You can think of the District's net position, the difference between assets and liabilities, as one way to measure the District's financial health, or *financial position*. Over time, *increases* or *decreases* in the District's net position are one indicator whether its *financial health* is improving or deteriorating. You will need to consider other nonfinancial factors, however, such as changes in the District's property tax base, and the condition of the District's capital assets to assess the overall *health* of the District.

In the Statement of Net Position and the Statement of Activities, we divide the District into two kinds of activities:

- Governmental activities: most of the District's basic services are reported here, including general administration. Local taxes, fees, and state aid finance most of these activities.
- Business-type-activities: the District has no proprietary funds.

**Reporting the District's Most Significant Funds**

**Fund Financial Statements**

The fund financial statements provide detailed information about the most significant funds-not the District as a whole. Some funds are required to be established by State law.

*Governmental funds:* most of the District's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called *modified accrual* accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed *short-term view* of the District's general government operations and the basic services it provides. Governmental fund information helps one determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. We describe the relationship (or differences) between governmental *activities* (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in a reconciliation.

**Notes to the Basic Financial Statements:** The notes provided additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements.

**Major Features of  
Township of Parsippany-Troy Hills  
Fire District Number 2  
Fund Financial Statements  
(Figure A-1)**

	Government wide Statements	Fund Statements Governmental Funds
Scope	Entire District (except fiduciary funds)	The activities of the District that are not proprietary or fiduciary, such as food service and student activities
Required financial statements	Statement of net position  Statement of activities	Balance sheet  Statement of revenues, expenditures, and changes in fund balance
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus
Type of asset/liability information	All assets and liabilities, both financial and capital, and short-term and long term.	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included.
Type of inflow/outflow information	All revenues and expenses during the year, regardless of when cash is received or paid.	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter.

**FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE**

The District’s net assets changed from a year ago, increasing from \$1,743,869.48 to \$1,811,608.10. Looking at the net position and net expenses of governmental activities, different stories emerge. Our analysis below focuses on the net position (Table 1) and changes in net position (Table 2) of the District’s governmental activities as of December 31.

**Table 1  
Net Position**

	Governmental		Total	
	Activities		Primary Government	
	2015	2014	2015	2014
Current and Other Assets	\$ 404,738.22	\$ 812,425.30	\$ 404,738.22	\$ 812,425.30
Capital Assets	<u>1,406,869.88</u>	<u>931,444.18</u>	<u>1,406,869.88</u>	<u>931,444.18</u>
Total Assets	<u>1,811,608.10</u>	<u>1,743,869.48</u>	<u>1,811,608.10</u>	<u>1,743,869.48</u>
Net Position:				
Net Investment in Capital Assets	1,406,869.88	931,444.18	1,406,869.88	931,444.18
Restricted	14,363.48	570,074.49	14,363.48	570,074.49
Unrestricted	<u>390,374.74</u>	<u>242,350.81</u>	<u>390,374.74</u>	<u>242,350.81</u>
Total Net Position	<u>\$ 1,811,608.10</u>	<u>\$ 1,743,869.48</u>	<u>\$ 1,811,608.10</u>	<u>\$ 1,743,869.48</u>

- Net position of the District’s governmental activities increased \$67,738.62 or 3.88 percent.
- Unrestricted net position, the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements – increased \$148,023.93.
- Restricted net position decreased by \$555,711.01 due to the acquisition of a new fire apparatus.
- The net investment in capital assets increased \$475,425.70.

The major addition this year was for the acquisition of a new fire apparatus. More detailed information about the District capital assets is presented in the notes to the basic financial statements

**BUDGETS**

There were no significant variances between the originally adopted budget and revised budget for the year 2015.

**CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT**

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Board of Commissioners, Township of Parsippany-Troy Hills Fire District Number 2, 1 Rainbow Trail, Denville, New Jersey 07834.

 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,  
 AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS  
 TO THE STATEMENT OF ACTIVITIES  
 FOR THE CALENDAR YEAR ENDED DECEMBER 31, 2015

**Total net change in fund balances - governmental funds (from B-2)** **\$ (407,687.08)**

Amounts reported for governmental activities in the statement of activities (A-2) are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.

This is the amount by which capital outlays exceeded depreciation in the period.

	Depreciation expense	\$ (47,518.14)	
	Capital outlays	<u>522,943.84</u>	
			<u>475,425.70</u>

**Change in net position of governmental activities** **\$ 67,738.62**

The accompanying Notes to Basic Financial Statements are an integral part of this statement.

**PROPRIETARY FUNDS**

**NOT APPLICABLE**

**FIDUCIARY FUNDS**

**NOT APPLICABLE**

Note I: Summary of Significant Accounting Policies

A. Basis of Presentation

The financial statements of the Fire District (Board) of the Township of Parsippany-Troy Hills Fire District Number 2 ("the District") have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District is required to follow the pronouncements of the Financial Accounting Standards Board (FASB) issued through November 30, 1989 (when applicable) that do not conflict with or contradict GASB pronouncements. Although the District has the option to apply FASB pronouncements issued after that date to its business-type activities and enterprise funds, the District has chosen not to do so. The more significant accounting policies established in GAAP and used by the District are discussed below.

B. Reporting Entity

The Board is an instrumentality of the State of New Jersey, established to function as a Fire District. The Board consists of elected officials and is responsible for the fiscal control of the District. A treasurer is appointed by the Board and is responsible for the administrative control of the District.

The primary criterion for including activities within the Township of Parsippany-Troy Hills Fire District Number 2 reporting entity, as set forth in Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards, is the degree of oversight responsibility maintained by the District. Oversight responsibility includes financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations and accountability for fiscal matters. The combined financial statements include all funds of the District over which the Board exercises operating control. The operations of the District includes one fire house located in the Township of Parsippany-Troy Hills. There were no additional entities required to be included in the reporting entity under the criteria as described above, in the current fiscal year.

Furthermore, the District is not includable in any other reporting entity on the basis of such criteria.

C. Basic Financial Statements- Government-Wide Statements

The statement of net position and the statement of activities display information about the District. These statements include the financial activities of the District, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the governmental and business-type activities of the District. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

TOWNSHIP OF PARSIPPANY-TROY HILLS  
FIRE DISTRICT NUMBER 2

NOTES TO BASIC FINANCIAL STATEMENTS  
YEAR ENDED DECEMBER 31, 2015  
(CONTINUED)

Note I: Summary of Significant Accounting Policies (Continued)

The statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the District and for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

D. Basic Financial Statements- Fund Financial Statements

The financial transactions of the District are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, reserves, fund equity, revenues and expenditures/expenses. The various funds are reported by generic classification within the financial statements.

The following fund types are used by the District:

Governmental Fund Types

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the District:

General Fund – The general fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or noninstructional equipment which are classified in the Capital Outlay sub fund.

Accounting principles generally accepted in the United States of America as they pertain to governmental entities state that General Fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.

Capital Projects Fund – The Capital Projects Fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary Funds). The financial resources are derived from temporary notes or serial bonds that are specially authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

TOWNSHIP OF PARSIPPANY-TROY HILLS  
FIRE DISTRICT NUMBER 2

NOTES TO BASIC FINANCIAL STATEMENTS  
YEAR ENDED DECEMBER 31, 2015  
(CONTINUED)

Note I: Summary of Significant Accounting Policies (Continued)

E. Measurement Focus and Basis of Accounting

The government-wide, proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include state and federal aid, property taxes, grants entitlements and donations.

Government funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments and compensated absences which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Ad Valorem (Property) Taxes are susceptible to accrual as under New Jersey State Statute a municipality is required to remit to its district the entire balance of taxes in the amount voted upon or certified, prior to the end of the year. The District records the entire approved tax levy as revenue (accrued) at the start of the year, since the revenue is both measurable and available. The District is entitled to receive moneys under the established payment schedule and the unpaid amount is considered to be an "accounts receivable".

F. Budgets/Budgetary Control

Annual budgets are adopted on a basis consistent with the requirements of law and the rules and regulations of the State of New Jersey, Department of Community Affairs, Local Finance Board. The Budgets, both operating and capital, can be considered statement of the financial plans of the District.

The annual budget is required to be balanced and fire districts are permitted to utilize unrestricted net position to balance their budget; however, the maximum amount which can be utilized is the lesser of (a) the estimated year-end balance of unrestricted net position or (b) working capital reduced by unrestricted position not ordinarily convertible into cash (non-liquid, such as prepaid insurance and inventory).

Amendments to the operating and/or capital budgets may be permitted for a variety of conditions, as more fully described in the rules and regulations promulgated by the Local Finance Board. There were no significant budget amendments during the fiscal year.

Under encumbrance accounting purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds are reported as reservations of fund balances at fiscal year end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services

Note I: Summary of Significant Accounting Policies (Continued)

G. Assets, Liabilities and Fund Equity

1. Deposits and Investments

Deposits are cash and cash equivalents includes petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. Other than Certificates of Deposit, deposits with maturities of greater than three months are considered to be Investments. U.S. Treasury and Agency Obligations and Certificate of Deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

New Jersey fire districts are limited as to the types of investments and types of financial institutions they may invest in. New Jersey statute 40A:5-15.1 et. seq. provides a list of permissible investments that may be purchased by New Jersey fire districts.

2. Inventories

Inventories, which benefit future periods, other than those that may be recorded in the enterprise fund are recorded as expenditure during the year of purchase.

3. Capital Assets

Capital assets purchased or acquired with an original cost of \$5,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on the following assets is provided on the straight – line basis over the following estimated useful lives:

Buildings	20-50 years
Machinery and Equipment	5-10 years
Improvements	10-20 years
Other Infrastructure	10-50 years

Land and Construction in Progress are not depreciated.

NOTES TO BASIC FINANCIAL STATEMENTS  
YEAR ENDED DECEMBER 31, 2015  
(CONTINUED)

Note I: Summary of Significant Accounting Policies (Continued)

G. Assets, Liabilities and Fund Equity (Continued)

3. Capital Assets (Continued)

GASBS No. 34 required the District to report and depreciate new infrastructure assets effective for fiscal year ending December 31, 2006. Neither their historical cost nor related depreciation had historically been reported in the financial statements. The District elected to implement the general provisions of GASBS No. 34 in the fiscal year ending December 31, 2006.

4. Long – term Obligations

Long – term debt is recognized as a liability of a governmental fund when due, or when resources have been accumulated in the debt service fund for payment early in the following year. For other long – term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund. The noncurrent portion (the amount estimated to be used in subsequent fiscal years) for governmental funds is maintained separately and represents a reconciling item between the fund and government – wide presentations.

5. Fund Equity

Reserves represent those portions of fund equity not appropriable for expenditure or legally segregated for a specific future use. Designated fund balances represent plans for future use of financial resources.

6. Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reports, amounts and disclosures. Accordingly, actual results could differ from those estimates

H. Recent Accounting Pronouncements

In November 2013, the Governmental Accounting Standards Board (GASB) issued Statement No. 71, "Pension Transition for Contributions Made Subsequent to the Measurement Date." The provisions of this Statement are required to be applied simultaneously with the provisions of Statement 68. The objective of this Statement is to address and issue regarding application of the transition provisions of Statement No. 68. This statement and Statement 68 will not have any effect on the Fire District's financial reporting.

In February 2015, the Governmental Accounting Standards Board (GASB) issued Statement No. 72, "Fair Value Measurement and Application." The requirements of this statement are effective for financial statements beginning after June 15, 2015. This Statement addresses accounting and financial reporting issues related to fair value measurements. The definition of fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This Statement provides guidance for determining a fair value measurement for financial reporting purposes and for applying fair value to certain investments and disclosures related to all fair value measurements. The District is in the process of reviewing its obligations under GASB 72, and its potential impact on the financial statements.

GASB 73, "Accounting and Financial Reporting for Pensions and Related Assets that Are Not Within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68", will be effective beginning with the fiscal year ending June 30, 2017. The objective of this Statement is to improve the usefulness of information about pensions included in the general purpose external financial reports of state and local governments for making decisions and assessing accountability.

GASB 74, "Financial Reporting for Postemployment Benefit Plans Other than Pension Plans", will be effective beginning with the fiscal year ending June 30, 2017. The objective of this Statement is to improve the usefulness of information about postemployment benefits other than pensions (other postemployment benefits or OPEB) included in the general purpose external financial reports of state and local governmental OPEB plans for making decisions and assessing accountability.

GASB 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions", will be effective beginning with the fiscal year ending June 30, 2018. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). It also improves information provided by state and local governmental employers about financial support for OPEB that is provided by other entities.

GASB 76, "The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments", will be effective beginning with the fiscal year ending June 30, 2016. The objective of this Statement is to identify- in the context of the current governmental financial reporting environment - the hierarchy of generally accepted accounting principles (GAAP). The "GAAP hierarchy" consists of the sources of accounting principles used to prepare financial statements of state and local governmental entities in conformity with GAAP and the framework for selecting those principles. This Statement reduces the GAAP hierarchy to two categories of authoritative GAAP and addresses the use of authoritative and nonauthoritative literature in the event that the accounting treatment for a transaction or other event is not specified within a source of authoritative GAAP.

Note II: Reconciliation of Government Wide and Fund Financial Statements

Explanation of Differences between Governmental Funds Balance Sheet and the Statement of Net Position

"Total fund balances" of the District's governmental funds in B-1 differs from "net position" of governmental activities reported in the statement of net position in A-1. This difference primarily results from the long - term economic focus of the statement of net assets versus the current financial resources focus of the governmental fund balance sheets.

	<u>Balance Sheet/Statement of Net Position</u>			Statement
<u>Assets</u>	Total Governmental Funds	Long - term Assets Liabilities (1)	Reclassifications and Eliminations	of Net Position Totals
Cash and Cash Equivalents	\$ 404,738.22	\$ -	\$ -	\$ 404,738.22
Capital Assets, Net	-	1,406,869.88	-	1,406,869.88
Total Assets	404,738.22	1,406,869.88	-	1,811,608.10
<u>Fund Balances/Net Position</u>				
<u>Net Position</u>				
Net Investment in Capital Assets		1,406,869.88		1,406,869.88
Restricted for:				
Capital Projects	14,363.48			14,363.48
Unassigned	390,374.74	-	-	390,374.74
Total Fund Balances/Net Position	404,738.22	1,406,869.88	-	1,811,608.10
Total Liabilities and Fund Balances/Net Position	\$ 404,738.22	\$ 1,406,869.88	\$ -	\$ 1,811,608.10

1. When Capital Assets (land, buildings, equipment) that are to be used in governmental activities are purchased or constructed, the cost of those assets are reported as expenditures in governmental funds. However, the statement of net position includes those capital assets among the assets of the District as a whole.

Cost of Capital Assets	\$ 2,582,221.41
Accumulated Depreciation	(1,175,351.53)
	\$ 1,406,869.88

Note II: Reconciliation of Government Wide and Fund Financial Statements (Continued)

Explanation of Differences between Governmental Funds Operating Statement of Activities

The "net change in fund balances" for governmental funds in B-2 differs from the "change in net position" for governmental activities reported in the statement of activities in A-2. The difference arise primarily for the long-term economic focus of the statement of activities versus the current financial resources focus of the governmental funds. The effect of the differences is illustrated below.

Statement of Revenues, Expenditures, and Changes in Fund Balance/Statement of Activities

<u>Revenues and Other Sources</u>	<u>Total</u> Governmental <u>Funds</u>	<u>Capital</u> Related <u>Items (1)</u>	<u>Statement</u> of Activities <u>Totals</u>
Local Tax Levy	\$ 284,815.00	\$ -	\$ 284,815.00
Interest Earned on Investments	3,257.84		3,257.84
Miscellaneous	1,293.87	-	1,293.87
Total	<u>\$ 289,866.71</u>	<u>\$ -</u>	<u>\$ 289,866.71</u>
 <u>Expenditures</u>			
Current:			
Administration:			
Other Expenses	\$ 37,738.08	\$ 14,544.11	\$ 52,282.19
Cost of Providing Services:			
Other Expenses	125,721.87	32,974.03	158,695.90
Capital Outlay	<u>522,943.84</u>	<u>(522,943.84)</u>	<u>-</u>
Total	<u>697,553.79</u>	<u>(475,425.70)</u>	<u>222,128.09</u>
Net Change for the Year	<u>\$ (407,687.08)</u>	<u>\$ 475,425.70</u>	<u>\$ 67,738.62</u>

1. Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount which capital outlays exceeded depreciation in the period.

Depreciation Expense	\$ (47,518.14)
Capital Outlays	<u>522,943.84</u>
	<u>\$ 475,425.70</u>

Note III: Detailed Disclosure Regarding Assets and Revenues

A. Deposits and Investments

Deposits

New Jersey statutes permit the deposit of public funds in institutions located in New Jersey which are insured by the Federal Deposit Insurance Corporation (FDIC), the Savings Association Insurance Fund, or by any other agencies of the United States that insure deposits or the State of New Jersey Cash Management Fund.

N.J.S.A. 17:9-41 et. seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Governmental Unit Deposit Protection Act (GUDPA). Public depositories include Savings and Loan institutions, banks (both state and national banks) and savings banks the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of Governmental Units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the Governmental Units.

At December 31, 2015 the District's cash and cash equivalents amounted to \$452,518.42. Of this amount, \$250,000.00 was covered by federal depository insurance (F.D.I.C.) and \$202,518.42 was covered by a collateral pool maintained by the banks as required by GUDPA.

At December 31, 2015 the District did not participate in the State of New Jersey Cash Management Fund.

GASB Statement No. 40, *Deposit and Investment Risk Disclosures*, requires the disclosure of bank deposits that are subject to custodial credit risk. The custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the District will not be able to recover deposits or will not be able to recover collateral securities that may be in the possession of an outside party.

As of December 31, 2015 none of the District's cash and cash equivalents of \$452,518.42 was exposed to custodial credit risk.

Note III: Detailed Disclosure Regarding Assets and Revenues (Continued)

A. Deposits and Investments (Continued)

Investments

New Jersey statutes (N.J.S.A. 40A:5-15.1) permit the District to purchase the following types of securities:

a. When authorized by resolution adopted by a majority vote of all its members the Board of Commissioners of any fire district may use moneys which may be in hand for the purchase of the following types of securities which, if suitable for registry, may be registered in the name of the fire district;

(1) Bonds or other obligations of the United States of America or obligations guaranteed by the United States of America;

(2) Government money market mutual funds;

(3) Any obligation that a federal agency or a federal instrumentality has issued in accordance with an act of Congress, which security has a maturity date not greater than 397 days from the date of purchase, provided that such obligation bears a fixed rate of interest not dependent on any index or other external factor;

(4) Bonds or other obligations of the fire district or bonds or other obligations of local unit or units within which the fire district is located;

(5) Bonds or other obligations, having a maturity date not more than 397 days from the date of purchase, approved by the Division of Investment of the Department of the Treasury for investment by fire district;

(6) Local government investment pools;

(7) Deposits with the State of New Jersey Cash Management Fund established pursuant to section 1 of P.L. 1977, c.281 (C.52:18A-90.4) or

(8) Agreements for the repurchase of fully collateralized securities, if:

(a) the underlying securities are permitted investments pursuant to paragraphs (1) and (3) of this subsection a;

(b) the custody of collateral is transferred to a third party;

(c) the maturity of the agreement is not more than 30 days;

(d) the underlying securities are purchased through a public depository as defined in section 1 of P.L. 1970, c.236 (C.17:9-41) and for which a master repurchase agreement providing for the custody and security of collateral is executed.

The District had no investments at December 31, 2015.

Note III: Detailed Disclosure Regarding Assets and Revenues (Continued)

A. Deposits and Investments (Continued)

Investments (Continued)

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The credit risk of a debt instrument is measured by nationally recognized statistical rating agencies such as Moody's Investors Service, Inc. (Moody's) or Standard & Poor's Corporation (S&P). U.S. government debt is considered to have no credit risk.

The custodial credit risk for investments is the risk that, in the event of the failure of a depository financial institution, the District will not be able to recover deposits or will not be able to recover collateral securities that may be in the possession of an outside party. Since certificates of deposits are covered by F.D.I.C. and GUDPA and U. S. government debt is guaranteed, there is no custodial credit risk.

Concentration of credit risk is the risk of loss attributed to the magnitude of an investment in a single issuer. There are no restrictions in the amount that can be invested in a single issuer.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH "GOVERNMENT AUDITING STANDARDS"

The Honorable President and  
Members of the Board of Fire Commissioners  
Township of Parsippany-Troy Hills Fire District Number 2  
County of Morris, New Jersey

We have audited the financial statements of the Township of Parsippany-Troy Hills Fire District Number 2 as of and for the year ended December 31, 2015 and have issued our report thereon dated March 4, 2016. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States; and in compliance with audit requirements prescribed by the Bureau of Authority Regulation, Division of Local Government Services, Department of Community Affairs, State of New Jersey.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit, we considered the Township of Parsippany-Troy Hills Fire District Number 2's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Township of Parsippany-Troy Hills Fire District Number 2's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Township of Parsippany-Troy Hills Fire District Number 2's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

111 Howard Boulevard  
Suite 212  
P.O. Box 397  
Mt. Arlington, NJ 07856  
Phone: 973-770-5491  
Fax: 973-770-5494  
[vm\\_associates@msn.com](mailto:vm_associates@msn.com)

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Township of Parsippany-Troy Hills Fire District Number 2's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our test disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

NOT APPLICABLE

**GENERAL COMMENTS AND RECOMMENDATIONS  
YEAR ENDED DECEMBER 31, 2015**

## GENERAL COMMENTS

### CONTRACTS AND AGREEMENTS REQUIRED TO BE ADVERTISED PER N.J.S.A 40A: 11-4

N.J.S.A. 40A:11-4 states “Whenever any work to be performed or materials to be furnished in or about any improvement or works to be made under the provisions of this article shall involve an expenditure of a sum of money exceeding the amount under which a contracting unit may award contracts or make purchases or agreements without public advertising pursuant to the provisions of Section 3 of P.L. 1971, c. 198 (C. 40A11-3), the municipal bodies or boards of the contracting municipalities, by their official action taken in joint meeting as herein provided, shall designate a time when they will meet at their usual place of meeting to receive proposals in writing, for doing the work or furnishing the materials,.....”

The governing body of the Township of Parsippany-Troy Hills Fire District Number 2 has the responsibility of determining whether the expenditures in any category will exceed the statutory limit within the fiscal year. Where question arises as to whether any contract or agreement might result in violation of the statute, the Attorney’s opinion should be sought before a commitment is made.

Effective April 17, 2000 N.J.S.A. 40A:11-1 et seq. (Local Public Contracts Law) was revised by P.L. 1999, c.440 (originally known as Assembly bill No. 3519). The Division of Local Government Services in the Department of Community Affairs, after consultation with the Commissioner of Education, shall prescribe rules and procedures to implement the requirements of the law.

Effective July 1, 2015 and thereafter the bid threshold in accordance with N.J.S.A. 40A:11-3 (as amended) is \$29,000.00, however effective January 1, 2011 the bid threshold for entities without a qualified purchasing agent was rolled back to \$17,500.00.

Inasmuch as the system of records did not provide for an accumulation of payments by categories for the performance of any work or the furnishings or hiring of any materials or supplies, the results of such an accumulation could not reasonably be ascertained. Disbursements were reviewed, however, to determine whether any clear cut violations existed. None were disclosed.

The results of my examination of expenditures did not reveal any individual payments, contracts or agreements were made “for the performance of any work or the furnishing or hiring of any materials or supplies,” in excess of the statutory limit where there had been no advertising for bids in accordance with the provisions of N.J.S.A. 40A:11-4.

### EXAMINATION OF CLAIMS

Claims paid during the period under review were examined for clerical accuracy and proper approvals.

The review and inquiry indicate good scrutiny on the part of the Fire District and Fire District Officials regarding expenditures.

RECOMMENDATIONS

None
